

Local Wellness Policy

We are committed to the optimal development of every student and believe healthy eating and physical activity are not only good for our students, but will support the academic goals of our school as well. Our wellness policy outlines our goals and nutritional guidelines to promote the health and wellbeing of all students.

Triennial Review

School Operations Solutions will conduct a triennial review for the school using appropriate tools and checklists aligned to state and federal requirements. The evaluation tools and notes will be provided to the school for review by the Wellness Committee and to be shared publicly via the school's local wellness policy webpage.
