
Dear BASIS Charter School community in Arizona,

We would like to provide you with an update regarding school closure. In line with Governor Ducey’s message, Arizona schools will remain closed at least through April 10, 2020. In light of this closure notice, we will continue our distance learning at BASIS Charter Schools.

Please ensure that your students have access to an internet connection and at least one device that meets the minimum requirements for Teams. Please reach out to the Head of Operations if your student does not have either device access or internet access at home.

Thank you for your patience with us as we work to get our online systems up and running, and as we all learn to navigate the new reality of distance learning for our students!

Sincerely,

Peter Bezanson
CEO, BASIS Educational Ventures
